AQUARITE® UV LOW SALT

Innovative combination of 3 disinfection Systems: ultraviolet technology, low Salinity electrolysis and hydrolysis (Salt concentration = 1,5 gr/l)

WATER TREATMENT

CONNECTIVITY OPTIONS

◆ Disinfection principle:

- Low salinity salt chlorination produces just the right chlorine dose to keep your pool water disinfected and disinfecting
- UV rays eliminate 99% of chloramines, algae, bacteria and microorganisms

◆ Control box:

- Control and regulation of the pH, Redox and free chlorine
- Control of filtration, lighting, pH, Redox + 4 additional auxiliary outputs
- Temperature control
- Remote management as an option (WiFi / Ethernet+ app)

◆ UV lamp: 2 x 55 Watt lamps

- Supply and control from the AquaRite®
- Universal 63 mm input and output connections
- 2 separate chambers for optimal efficiency due to increased contact area with the water
- Equipment made of a special PVC UL1018, formulated to resist UV rays and pressure up to 3 bars

YEARS OF
WARRANTY

SUMHEAT Fi FULL INVERTER

The new generation of vertical Full Inverter heat pumps. Up to 30kW, the most powerful range on the market!

- ❶ Intuitive, highly informative user interface
- ❷ 20 m Wall mount kit (optional) HWX29400053

- ◆ **Vertical conception, ideal for new construction and after market**
- ◆ **The IN-Tech Technology Full Inverter** is the combination of an Inverter CPS Mitsubishi / Panasonic compressor and a DC inverter fan
- ◆ **Specially designed** for use in all seasons, in extreme conditions at temperatures **as low as -15°C**
- ◆ **Wifi module included**
- ◆ This allows to adapt its power to the climatic constraints and energy requirements of the pool.
In regulation mode, up to 30% energy savings
- ◆ **Self-adaptive defrost system** to optimise defrost cycles
- ◆ Operates on idle for a **very quiet night mode**
- ◆ **Real-time information shown** on a wide control screen (diagnostic tool for professionals)

EXPERT LINE
